## V. F. Nedbal, III Three Weeks, Buried Monday

### American Legion Pays Tribute to Former Norwood Commander at Rites

Comrades of the Antioch American Legion paid final tribute to V. F. Nedbal, 51, at funeral services held in St. Peter's Catholic church Monday morning at 10 o'clock with burial in Mt. Carmel.

Nedbal passed away in St. Therese hospital Friday after a three weeks' illness. The body lay in state in the funeral home until the time of the services.

A veteran of World War I, Nedbal was a past commander of Norwood Post No. 740 of the American Legion. He was a member of the Loyal Order of the Moose and the Knights of Columbus.

### Lived Here 4 Years

The family moved to Antioch four years ago, when the Chicago office and decorating plant of the Pickard company were transferred to the local office. He had been in the employ of that company for 18 years. Three years ago he accepted a position in the priorities department of Johnson's company, which he held until the time of his death.

Besides his wife, Mary, he is survived by their three daughters, Dorothy (a cadet nurse at St. Joseph's hospital), and Frances; and two brothers, George, of Chicago, and Frank, of Fairfax, Calif.

He was highly esteemed by the many friends he had made here, and although his death was not unexpected, the news was learned with regret in the community.

### Lake County Bankers

#### Honor 4-H Federation

The Lake County Bankers' federation honored outstanding project members of the agricultural club in the county by awarding to the following members a picture frame in which to place 4-H club certificates. These were presented by Roy L. Murrie, representing the federation, at the recent 4-H Club Achievement contest.

Early in the year, the Bankers' federation invited as guests at a dinner the agricultural 4-H club leaders, members of the 4-H club committee, and various outstanding 4-H members from Lake county. The purpose of this meeting resulted in a committee being appointed to meet the farm adviser, Roy T. Nichols, to work out a plan whereby the county banks could assist in promoting the 4-H club program.

The committee and the farm adviser worked out a plan whereby a health activity contest would be sponsored, the winners to receive picture awards.

The contest, which opened on Sept. 15 and closed Dec. 15 and winners will be announced soon.

It was also decided by the committee that a part of the funds contributed by each of the 13 banks in Lake county above that used for prizes in health activity contest would be used to purchase picture frames.

## Mileage, Speedometer Records Needed With Gasoline Application

War Price and Rationing Board No. 41-3, serving Antioch, Lake Villa and Grant townships, has asked that persons applying for supplemental and occupational mileage rationing gasoline include in their application blanks their speedometer reading as of the day they are applying.

Applicants are also requested to enclose their mileage rationing record (which was returned with each A hook).

Requests for additional gasoline cannot be granted until these conditions are complied with, the board announces.

## News of the Boys in Service

Pvt. R. L. Perry, Dow field, Bangor, Me., observes: "I have been going to airplane mechanic school here for the past three months and still have three more to go."

"I had a letter from home saying that Lt. Orville Winfield was home. I would sure like to see him and a lot of the other boys."

"We had open house here today celebrating the opening of the winter flying season in the North Atlantic wing. Civilians were admitted on the field and a few planes were shown, with equipment. The program ended with a retreat parade with arctic equipment."

"It has been pretty cold here in Maine the last week or so, and some pretty bad winds. It blew quite a few trees over and snow fences; also a high live wire in town which became the center of attraction for quite some time."

"They talk about Maine for fishing and hunting, but you can give me good old Illinois or Wisconsin any day. There were almost as many hunters shot up here as there were deer. As far as fishing goes, I don't think it is as good as it is at home. They won't even keep some of the fish up here that we eat at home, and I have sat in a boat all day for a couple of perch and a bass."

"I guess I'll sign off for this time. Wishing the Antioch News, the American Legion, and all my friends in and around Antioch a Merry Christmas and a Happy New Year!"

## Pre-Christmas Week Is Busy One in Antioch

### Programs Usher in Vacation Periods at Schools; Carols Are Broadcast

Ushered in by the sound of Christmas carols broadcast over a loudspeaker system late Monday afternoon, Antioch's pre-Christmas week is proving to be a busy one.

Monday evening the Antioch High school musical organizations presented their annual concert for the benefit of the Red Cross.

Wednesday morning and afternoon the annual village treat for the school children was held in combination with the various room programs and Christmas tree celebrations at Antioch Grade school.

"Santa Claus" visited each of the rooms to help in the distribution of candy and fruit from the village and the additional treats provided by the teachers. A sack of candy for each child in the school was a special gift from Ted Poulos, proprietor of Ted's Sweet Shop.

The village treat was arranged under the chairmanship of James Stearns. Christmas vacation at the grade school commenced with the close of the last program Wednesday afternoon. Classes will be resumed Thursday morning, Jan. 4.

A Christmas assembly, featuring the singing of carols, was held at Antioch Township High school Wednesday afternoon before classes were dismissed for the holidays. They will be resumed at the high school also on Jan. 4.

### Stores Open Evenings

The Christmas carols are being broadcast each evening throughout the week, through the courtesy of the Antioch Lions club. The loudspeaker system is operated by William Banded.

Antioch stores are open each evening during the period from Dec. 15 through Dec. 23.

## Antioch Jurors Inspect County Jail; Concur in Advising New Building

Roy L. Murrie and Arthur Rosenfeldt served on the grand jury in Waukegan Wednesday morning. Two cases were heard, both of which were bound over to the circuit court. In the afternoon the jury paid its annual visit of inspection to the county jail.

After the tour the jurors adopted the following resolution:

"It was moved and seconded and passed unanimously by the grand jury that they go on record as recommending the construction of a new criminal courts building."

(Signed)

"Roy L. Murrie, foreman."

"Ruth C. Johnson, clerk."

Sheriff Walter L. Atkinson and members of the building and grounds committee of the Lake County Board of Supervisors, including Supervisor William A. Rosing of Antioch township, who is a member of the building committee, accompanied the jurors on their inspection.

The construction of a new combination criminal courts and jail building as a post-war project, to replace the present half-century-old building, which would need extensive (and expensive) repairs, has been the subject of considerable study on the part of the supervisors since last July.

Mr. and Mrs. Kanis have made their home in Wilmet throughout their married life.

Park Allanson of Mundelein was re-elected vice-chairman and Joseph Kelsier of Prairie View was also chosen as a member of the committee. Alexander D. Hughes, Antioch, and Donald J. Adams, Newport township, were named alternate members.

This publication now holds a higher place in the esteem of Pvt. Stephen N. Ryzko, Jr., of the U. S. Marine corps, Parris Island, S. C.—

"I received the Antioch News this morning and was glad to get it. Now that I'm away from home, I really find it interesting."

"There isn't a better branch of the service than the Marine corps was my idea before I got in, and now I really know it. It's sort of tough, but anyone can get accustomed to it if he wants to. The food is swell, and we get all we want."

## Loyde T. McNerney Passes Suddenly

### Veteran Waukegan Newspaperman Was Well Known Here

The many friends whom Loyde T. McNerney, 51, veteran Illinois and Iowa newspaperman, had made in this region as county news reporter of the Waukegan News-Sun were saddened to learn last evening of his sudden death yesterday at 12:30 o'clock noon in his home, 1535 Henry place, Waukegan.

McNerney, who at the time of his death was courthouse reporter for the News-Sun, was also a frequent visitor here during the period when he and Wayne T. Stupey were publishing the Waukegan Times as a weekly paper, since they had the publication printed in the Antioch News plant.

He had suffered a heart attack Nov. 6 and was for two weeks a patient in Victory Memorial hospital, but was believed considerably improved.

Born in Menasha, Wis., he later lived in Iowa, coming to Waukegan in 1916 as city editor of the Waukegan Gazette, predecessor of the News-Sun, for two years. Returning to Iowa, he worked for other newspapers there, but came back to Waukegan and was a member of the Waukegan Daily Sun staff, serving as assistant to City Editor Wayne T. Stupey and originating the "Sun Spots" column still continued by the News-Sun.

Both McNerney and Stupey later became associated with the Waukegan Times, then a daily, which they later continued as a weekly until it was purchased by the now discontinued Waukegan Post. He also had served as business manager of the Evanston News-Index, and had written for Chicago papers, including the Tribune and the Herald-Examiner.

Surviving are his wife, Grace Schad McNerney, and their daughter, Patricia.

## 1944 Income Paid on or After Jan. 1 Is Under New Tax Rates

The revised rates for withholding income tax from wages, provided by the Individual Income Tax Act of 1944, apply to all wages paid by an employer to his employees on and after Jan. 1, 1945, regardless of when the wages were earned, Carter H. Harrison, collector of internal revenue, announces in a news release sent out from the First District revenue offices in Chicago.

Under the new law, he cites, for example, any wages earned in December but not paid to the employee until Jan. 1 or later are subject to the new withholding rates.

On the average, about the same amount of tax will be withheld under the new rates as was withheld under the old rates. However, since the rates were revised to adjust each employee's withholding more closely to his annual income tax, in individual cases the withholding may be either more or less than before.

Collector Harrison further explains that the withholding receipt, Form W-2 (revised), for 1944, to be given by employers to all employees by Jan. 31, 1945 must show all wages actually paid during 1944, together with the amount of income tax withheld during calendar year.

If any wages earned in December are not paid to the employee until Jan. 1, or later, such wages must not be included on the 1944 withholding receipt, he said. Inasmuch as practically all wage earners who may use these receipts as their 1944 returns file on the basis of income received during the year, inclusion in the receipt of any wages not actually paid would result in incorrect returns.

Dr. and Mrs. E. J. Hays plan to spend Sunday in Chicago visiting relatives.

### Anti-Inflation Campaign

Pointing out that there are other ways in which wars can be lost, besides on the battlefield, the Antioch-Lake Villa-Grant township rationing board is endeavoring to cooperate in all respects with the national anti-inflation campaign sponsored by the Office of Price Administration.

In order to carry on the local program to best advantage, the board recently created a Community Service panel to coordinate the efforts of local business people and housewives in making sure that price ceilings are uniformly observed and justly applied.

Since the burden of inflation, like the rain, falls upon the just and the unjust alike, and brings the greatest hardships to those least able, financially, to bear them, it is felt that the general public will give hearty cooperation to the Community Service panel in its work.

Asking for such cooperation throughout the country, the Office of Price Administration says —

"Looking back over the inflationary experiences which followed World War I, we must face the fact that a very critical period in our present price control program lies in the months just ahead. With our present controls it is unlikely that prices would get away as badly as they did after the last war. But any increase in food prices at this critical time could bring serious pressures on other

prices. We are now faced with the following dangers:

"1. Good news from the battle fronts may give people an unfounded feeling that there is no longer any danger of rising prices.

"2. While military victories may improve the supplies of some foods enough to ease the pressures on some prices, we face an overall picture of very uncertain supply and unpredictable price pressures. The dangers of serious inflation will remain. In the face of this uncertainty we must guard against having particular price decreases interpreted as a general decline in the danger of inflation. If this happened before overall supplies actually equal demand, we could very rapidly lose all of the ground we have held so far and set the stage for a disastrous depression."

## It's Christmas . . . . CHRISTMAS!

Holly on the door and a candled wreath in the window. Stockings by the fireplace, carols in the dark, and the jeweled Christmas tree glittering through the night. What would Christmas be without them? The answer is...it would still be Christmas.

For Christmas isn't symbols...Christmas is something that happens to people. It wells up, overflows, bursts forth from the heart of every human being. It goes far beyond the traditional forms of our American observance...adopts a hundred different forms all over the world and transcends them all. Christmas is the sweetest emotional experience shared at one time by mankind.

There's not a flake of snow in the South Pacific tonight, not a single tinkling sleigh-bell. But the tender joy of Christmas fills fighting American hearts on every atoll and palm-fringed isle. There are no street-singers in the North Atlantic, nor a Christmas tree in all its watery waste of miles. The men on the icy convoys need no symbols to remind them...their thoughts and love and prayers tonight are winging home to you.

So let not the absence of a loved one depress you or steal your holiday joy. The Spirit of Christmas is working in his heart as in yours; he is sharing your Christmas with you just as certainly as if he were greeting you in the glow of your own lighted tree—as he will, most assuredly, on a Christmas yet to come.

GOOD CHEER! There's nothing quite like it. And good cheer is an affair of the heart. It cannot be withheld and hoarded to gain added value with the days or years. Good cheer must be spent!

Let us all radiate good cheer this Christmas of 1944, for there are reasons enough for good cheer if we but pause to reflect.

Merry Christmas greetings from all of us to all of you.

## THE STAR IN THE EAST

Down through the ages has come the  
story of the shepherds tending their  
flocks at night, awed by the Star in  
the East.

During this sacred season, mellowed  
by the thought of those who cannot be with us, we  
have abundant reason for gratitude. We have come  
a long way since the dark Christmas of 1941. The  
Star in the East shines brighter now.

That this may, indeed, be a Merry Christmas for  
you and yours is our ardent wish.

## Jeannette Whited Becomes Bride of Navy Lieutenant

Antioch friends received announcements this week from Mr. and Mrs. M. C. Whited of 502 North Kentucky avenue, Lakeland, Fla., of the marriage of their daughter, Miss Jeannette Elizabeth Whited, to Lt. (jg) William L. Musser, medical corps, USNR, Nov. 17 in the Portsmouth, Va., naval chapel.

The bride, who was born in Lakeland, is also well known here, as she attended school in Antioch as a young girl.

After graduating from Lakeland High school in 1941, she entered nurse's training in Jackson Memorial hospital, Miami, Fla. She joined the cadet nurses' corps in 1943 and is now completing her training at the U. S. Naval hospital, St. Albans, N. Y.

Lt. Musser is the son of Mr. and Mrs. C. Guy Musser, Clarksburg, W. Va. He received his A. B. degree from the University of West Virginia in 1939 and his M. D. degree from McGill university, Montreal, Canada, in November, 1943.

Five members of the auxiliary went to the U. S. Veterans' hospital at Downey last Thursday to wrap Christmas packages, in accordance with their annual custom. Members of this committee included Mmes. Agnes Hills, Ellen Swanson, Addie Horton, Lillian Hand and Tillie Miller.

A Christmas party was held by the Rebekahs Wednesday evening, with initiation of one candidate during the business meeting.

YOU CAN SAVE GAS on every trip you make, if you will remember not to depress your gas pedal at quick intervals to gain more speed, but to press slowly and evenly. The mechanical design of your car's fuel system is such that it will draw fuel through jets each time you pump, or gun the motor. Watch your driving and count the number of times you press the pedal in 1 block—multiply that by the number of blocks in a day's driving and see what it is possible to save.

From an Air Service command depot in England—  
Crippled trucks awaiting repairs mean bottlenecks in shipments of vital parts for fighting planes, and Pfc. Donald F. Collins, Lake Villa, is a bottleneck-busting driver.  
He was commended recently by Brig. Gen. Isaac W. Ott, commanding general at the largest air service command aircraft repair depot in Britain for his care in keeping his huge truck off the "deadline."  
He and his buddies set an all-time record by having every one of their trucks in top operating shape, with not a single one deadlined through accidents or breakdowns.  
He drives thousands of miles each month over fog-bound British roads transporting engines, parts and equipment for the fighters and bombers over the front. Careful maintenance, he says, is just as important as careful driving.  
Pfc. Collins is the son of Mrs. B. F. Collins, Lake Villa.

Now receiving his recruit training at Great Lakes is Elmer Leroy Hartnell, son of Mr. and Mrs. Miner Hart-

nell, Salem, Wis. Hartnell, who was graduated from Antioch Township High school in 1943, was inducted through the Kenosha county board Nov. 22.

Attracting much attention during the past several days while it has been on display in the Antioch News show window is an ash tray made by Sgt. Henry Pape of metal from shells and cartridges, and from a Jap Zero airplane.

Australian silver coins are also utilized as part of its decorative scheme. The base of the tray is brass, as is also a standard on which is mounted a model airplane of aluminum.

Sgt. Pape, who was formerly stationed in New Guinea, is now in the Philippines.

### HOWARD L. HAGEMANN

#### IS NOW AERIAL GUNNER

Cpl. Howard L. Hagemann, 19, son of Mr. and Mrs. Walter F. Hagemann, Trevor, Wis., is among the men recently graduated from the Second Air Force Combat Training school at Davis - Monthan field, Tucson, Ariz., and qualifying for combat duty. He will in the near future go overseas as an aerial gunner of a B-24 Liberator bomber crew.

A news release from the field states:

"In an intensive 10-week preparatory course taught here by veteran fliers from every theater," the release continues, "Cpl. Hagemann and his bomber crew-mates have been instructed both on the ground and in the air in the newest heavy bombardment combat tactics. Trained to work together as a closely coordinated aerial team, they have enacted many simulated missions and have bombed objectives time and again. Fighter planes, posing as the enemy, have intercepted such missions, and defensive action has been recorded and evaluated by the new gun-camera technique in which cameras are rigged to the machine guns and pictures are taken in place of bullets being fired."

Cpl. Hagemann was graduated from Antioch Township High school in the class of 1943.

### GRANDSON OF ANTIOCH RESIDENTS IN

"WINGED VICTORY"  
James Edward Gilbert, son of Mrs. Louise Gilbert, Chicago, and grandson of Mr. and Mrs. Joseph C. James, Antioch, is in Chicago with the "Winged Victory" company as a musician. Gilbert, who is in the army air forces, is among the service men granted special permission to appear in the production.

From Lt. D. M. Beckwith, U. S. Coast Guard Recruiting office, 53 West Jackson boulevard, Chicago, 4, Ill.

"For a short while, at least, the coast guard is accepting well-qualified 17-year-old men for enlistment."

"This is, of course, of vital interest to many boys who prefer a nautical service to going into the army—and, we believe, appeals to parents, too, because of the exceptional training program given all recruits at Manhattan Beach, N. Y., prior to sea duty."

—V—  
Pfc. Richard O. Burnette writes from Porto Rico—

"Dear folks:  
"Seeing that I took that little trip yesterday and didn't get a chance to write, tonight I had better try and type out a letter to you. First of all I will tell you about our little outing yesterday, which was very much fun and interesting."

"As I have written previously we were going out to this place and see how the different things grow down here. We left around ten in the morning and got out to this farm that belongs to the Church around 11:30. I really got a thrill out of picking my first orange off of the tree and eating it. They have all kinds of orange trees, banana trees and coffee plants, also grapefruit trees. The bananas weren't ripe at this particular time so didn't get a chance to see how they tasted. I must have ate as well as everyone else, about a half dozen oranges."

"We took this hike up over a mountain path to see how coffee grows, and I was more or less disappointed in that as I always figured that coffee was cultivated, etc., but this is planted throughout this mountain side and the berries look just like cranberries, red color and all before picking and drying."

"I don't know how long it takes to dry coffee and get all the different beans off of it, but it is quite a big task. They have a cement place to spread the beans out to dry and then take off one shell and let them dry more and then remove another shell etc. Also there is a bridge, cement, out almost in front of the house and they even had one lane of it used to dry the coffee beans on."

"After taking this hike, we had a picnic lunch that this fellow brings along, then took pictures and strolled around the place for quite some time and then came back to town."

"On the way out we broke a leg in his rear spring and had to take a easy driving. I guess we all were too heavy weights for his car, which was a Mercury, five passenger coupe. We ate supper at this place (The Fellowship House) and that home cooking really tasted good. They

charge forty cents for supper, but they are well worth it, home cooking and home eating style. We took some pictures, so if any turn out, will send you some.

"This afternoon it rained out pretty hard and I found it a good time to sleep. I have to work tonight and getting up early yesterday found that a little sleep would come in handy."

"I have described our trip pretty thoroughly and don't have much else to write about, but will look over these letters from you and see if there are any questions to answer. One page of typing is about equal to three or four pages handwritten, that is why I seldom ever type my letters as they sure would look very short."

"I still haven't received any of those packages you and different people have wrote about sending, but they must be waiting for transportation somewhere along the line, and I can guess where. One of these days they will come through and suppose things will be sort of dried out."

"In this letter which I received today I do see that there are quite a few shades and blends of ink."

"I guess that midnight shift really mixes thing all right. I don't have it again until the first of Dec. and then for two weeks. I don't mind it so much as the more things are mixed up in the Army the more natural it seems."

"I guess I will have to bring this to a halt and see if I can find a little something to do to kill a few hours. This leaves me fine and hoping it finds you both the same. Have you heard from or how Uncle Pete was since being out there?"

Love

Dick

"P. S. I was counting up the other night and since March the first have

written two hundred and forty letters not including the letters I write to you and Bud as I write you two every other day or every day. That makes an average of around thirty letters

per month. If I counted in what I wrote you two I would average better than 60 letters per month written. That is a few letters to write I must admit."

# STRAIGHT TALK ABOUT THE SIXTH WAR LOAN DRIVE

**AS WE MOVE** closer to victory, it wouldn't be surprising if you were saying to yourself—  
"What's the big idea of asking for all this additional money now? Isn't the war almost over?"

No sir, it is not! Not by a long shot. Of course, for many months now you've heard mostly about the war with Germany, where our greatest effort is concentrated. That's why many people have the idea that the war's practically over.

But make no mistake about it—nothing could be farther from the truth! The Japanese war is a tremendous undertaking, and victory will come high. We'll have to fight every inch of the way.

### Everything Costs More— In the Pacific War

The European war is expensive, but almost everything in the Pacific war will cost more. Take transport costs, for instance: Because of the longer distances, the same amount of freight costs 25 per cent more when shipped to the South Pacific than to Europe. And it takes twice as many cargo ships in the Pacific to support a task force of a given size because turn-around time is twice as great!

### More Planes... Tanks... Ships... Oil

In addition, we shall need more of everything. More B-29 Superfortresses that cost \$600,000 each. More P-47 Thunderbolts that cost \$50,000 each. More M-4 Tanks, with bulldozer blades, that cost

\$67,417 each. More amphibious tanks—more aircraft carriers—more supply ships—more gasoline and oil than it took for the invasion of Europe!

### Care for the Sick and Wounded

And lest anyone forget, we shall need more battalion aid stations—more clearing stations—more evacuation hospitals—more convalescent hospitals—more hospital ships.

For many, many years the sick, wounded, and otherwise disabled veterans will require medical attention and care. That's the least Uncle Sam can do in appreciation of what they've done for us.

### Maintenance for Millions

Did you ever stop to think how much money it costs to maintain the 11 to 12 million men and women in our army and navy? Whether the men are actually fighting or not, they must be fed, housed, transported from one training center or battle area to another, cared for in a hundred and one different ways. That all costs money and will continue to until the last man demobilized is back in civilian clothes.

In addition, millions of dollars will be required for mustering-out pay, for various benefits and services voted by Congress to help the boys get started in civilian life.

These are reasons enough why patriotic Americans will want to buy heavily during the Sixth War Loan. But here are still more—

### Winning the Peace—for Your Country

If we're to win the peace as well as the war, the cost of living must be kept down and the purchasing power of money preserved. A reckless inflation that would necessarily be followed by the catastrophe of deflation—with its unemployment, bankruptcies, misery and heartache—must be prevented at all cost.

Let's make no mistake—a dangerous period lies ahead. The American people have nothing to fear, however, if they show in the future the same common sense they have shown in the past, and continue to put every penny over rock-bottom expenses into the purchase of more and more War Bonds.

### Winning the Peace—for Yourself

Want another important reason? Yourself! There isn't a better or safer investment in the world today than War Bonds. In helping your country, you are also helping yourself! Never in our entire history has it been so necessary to save as right now. We'll need money, individually, for education, repairs, replacements, retirement—and we'll need a lot of it.

As you can see there are many reasons, important reasons, why our Government must have the financial support of everyone, and have it for many months to come.

Let all Americans do their part—for their own sake, for their country's.

The Thanksgiving dancing party, at Willson's Opera house, last Thursday evening, was a great success. Ninety couples were in attendance.

Owing to the crowded condition of their store, Webb Bros. and Perkins have leased the rooms under the News office and will use the same as a store room for a car-load of flour just received.

## 6 major advantages for industry in this area...

Northern Illinois has always been a foremost industrial area... in peace as well as wartime. Yes, a region where industries find it to their advantage to locate. Because here, rail, truck, water and air traffic converge. Here, within a radius of a few hundred miles, is the marketing and distributing center for nearly one-half the nation's population.

In this area, manufacturers have easy access to basic metals and raw material. Here is one of the world's leading financial centers. Here, too, are electric power plants of vast capacity to serve industries and farms as well as commercial establishments and homes.

Indeed, Northern Illinois is a great region today... and will be even greater tomorrow. Its favorable combination of economic factors makes it a region where established industries and new enterprises can thrive in the post-war period.

## DEAR FRIENDS—

These are days when most of us are trying to keep our spirits up. We are reminded that this is the fourth Christmas and the fourth New Year to begin since the start of this war. Hardly a home is without at least one blue star in the window and the gold ones are no longer uncommon.

We cannot take time out for celebration, for those of us at home, like the men and women across the sea—and in this country must carry on steadily until the victory is won.

Instead of saying Otto S. Klass wishes you a Merry Christmas, suppose we say "We hope that this Christmas season may bring to us a little keener realization of your own personal duties and obligations and a clearer belief in the principles for which we here in America stand."

My most sincere wish at this Christmas season is that this may be the last wartime Christmas the world will ever know.

Yours very truly,

OTTO S. KLASS
